Ms. Christine Gaitens
President of
Ontario Association of Child and Youth Care

Dear Ms. Gaitens,

On behalf of our association I am writing to support you on your endeavor to professionally regulate the child and youth workers in this province. These individuals work with some of the most vulnerable children and youth in the province of Ontario. We rely on such workers to act in a professional and ethical manner at all times in carrying out their duties. In regulating this profession, we believe it would entrench high standards, improve training and skill development, and provide better accountability.

Regulation of child and youth workers will allow all of us to continue to raise the standard of care provided to children and youth in this province.

Please let me know if you require any further assistance or support from our association.

Thanks,

A handwritten signature in black ink, appearing to read "William Wilson".

Sincerely,
William Wilson
President
Ontario Residential Care Association
