RE: Ontario Association of Child and Youth Care

Dear OACYC Board of Directors,

Thunder Bay Counselling Centre would like to extend our support to the OACYC in its efforts to improve the services children and youth receive through the regulation of Child and Youth Care Practitioners. Our organization has varying positions that include Child and Youth Workers and seeks out qualified individuals who are registered with a professional college as a preference. It ensures a standard of competence and accountability that supports the best care possible for the individuals we serve.

Sincerely,

Nancy Chamberlain
Executive Director
